# Remember—Your Year's Tire Bill Will Be Lower

WHEN men raise the question of tire prices, users of Goodyear Cord Tires hold fast to one thought.

At the end of the year they will spend fewer dollars for tires.

The man who has been dazzled with a low price finds his purchase falling short of its promise. Plausible excuses there are innumerable for its failure. But low price piled on low price still leaves the year's tire bill extravagant.

Far different is the policy which has developed the Goodyear Cord Tire.

A policy of always searching for methods of building better tires—and of grasping every such opportunity at any cost. A policy of adding to a four-

dation of high grade materials, super-fine workmanship.

So, when you make Goodyear Cords regular equipment on your car, you can confidently look for lower tire costs through greater mileage. For greater comfort and a saving of gasoline because of great flexibility and liveliness in the tires you use.

The Goodyear Service Station Dealer will tell you how many of your friends and acquaintances have come to Goodyear Cord Tires.

He will also tell you about the Goodyear Heavy Tourist Tube—a better, thicker tube which warrants its extra price by giving longer service.

Typist Room, (Ottawa, Ont.) are manufacturing, assembling and repairing. For all the details of their extraordinary bookkeeping, adding systems, see booklet for a price, mailed on a Burroughs.

## A World of Detail

No trouble at all

*A Canadian business man tells how he found, and got rid of, hidden losses that had been taking money out of his profits*

By F. A. TYLER  
of Taylor Bros., Calgary, Hamilton, Ont.

"The net of our story was that we were earning profits we didn't get.

"We had good volume, which was growing all the time. But larger gross receipts aren't much encouragement when the net is falling off.

"Study of every department only proved that we ought to be making more money. Plainly we needed detailed figures on costs and operation. We didn't see how we could stand the expense of a cost system—one that would go far enough to do us any good—and then we heard about the Burroughs way of handling figures with a machine. We had never thought our business was big enough for that; and were a little surprised to find there was a Burroughs that would give us what we wanted without any addition to the payroll.

"Our office girl and a Burroughs were put on our costs—and with that information it was no trick at all to locate the weak spots, increase production in

some lines and curtail it in others, cut costs in several departments where we were astonished to find that we had been losing money.

"That one Burroughs machine—and we wonder how we ever got along without it—does all the figure-work of our business. We never made a better investment."

### The A B C of Business

The standard Burroughs line embraces machines for Adding, for Bookkeeping and for Calculating—among them a model which will fit into any business, large or small, and repay its cost in the savings of a few months.

Burroughs offices are maintained in many Canadian cities—St. John, Nfld.; Halifax, N. S.; St. John, N. B.; Quebec and Montreal, P. Q.; Ottawa, Toronto and Hamilton, Ont.; Winnipeg, Man.; Regina and Saskatoon, Sask.; Calgary and Edmonton, Alta.; Vancouver and Victoria, B. C.

## Chicken Haddies

*Quality Brand, Trade Mark Registered*

*From the cool depths of the Atlantic to your dining table*

Picture yourself on our wharf at Casso or Digby, N.S., some fine morning, waiting for our fleet to unload its silvery cargo of tender, young fish caught in the greatest fishing waters of the world.

What would you not give to be able to select the choicest specimens from that glittering horde? If you could you would doubtless pick out the same tender, young fish that we use exclusively for **CHICKEN HADDIES**, the delicious, economical sea-food.

After removing the skin and bones, **CHICKEN HADDIES** are cooked to a delicious flavor. Preparation of the packaged haddies entails wrapping them in vegetable parchment wrappers. Then they are packed in rectangular sealed containers so as to ensure retention of the delicious flavor.

The thoughtful and thrifty housewife always has the lookout for high quality at low price. Tender **CHICKEN HADDIES** are perfect food, for they come in the tins with all the flesh wholeness of the fish and are, too, well kept the many fish with its delicate flavor enhanced by the use of a suitable sauce.

## THE COAL Resources of NOVA SCOTIA

Coal is the basis of modern industry. It is basic to the problem of reconstruction. A plentiful supply of coal at a fair price is of first importance and necessary to enable freight, manufacturing and living costs to be kept to a minimum.

Nova Scotia has the only coal deposits on the Atlantic seaboard of America. The quantity available is authoritatively estimated at nine thousand million tons.

Investigate the industrial opportunities of this Province.

## Millions of Cups Enjoyed Every Day

Nothing succeeds like Quality and Value. The more Quality given for the money the greater the return.

Figuring on this basis, the Quality given in the Red Rose Tea packages must be huge for the money.

For millions of cups of Red Rose are enjoyed every day in Canada.

Wherever the railroad, the auto, the horse, the canoe, and the dogged go—be it a main road or a trail through the wilderness—wherever "good" tea is enjoyed and value and economy appreciated—there you will find the Red Rose packages.

To supply the demand for Red Rose Tea, the T. H. Estabrooks Company operates in St. John, New Brunswick, one of the largest tea sorting, sorting, blending, and packing warehouses in Canada, and, in addition,

there are branches in five other Canadian cities. Almost every grocery store in Canada sells Red Rose Tea.

While the residents of the Maritime Provinces look upon the T. H. Estabrooks Company as an industry that belongs to the provinces, the lovers of "good tea" all over Canada have made it an industry of national importance.

Every day they go by the thousands to the grocery store to buy one with the distinctive Red Rose flavor, the robust Red Rose strength, and the splendid Red Rose economy.

Red Rose Tea tastes better, goes further and is more economical, because it consists chiefly of full grown ASSAM tea—the richest and strongest in the world.

Red Rose meets every tea requirement.

There were loads of the sort of insects that do not harm for any reason but have a decided habit of—well, crawling on you. I caught a few and kept them in a bottle. I wish I had but they didn't seem to be interested in the way of self-defense. It was just that the insects had intuitive insight. Some became very friendly, even the members of the "bad" species.

But then the more was over a difference, a self-defense-appeal, where the insects, even of the three-legged sort, would glare at you. Instead of the sympathy and friendliness of the crawling insects, the "bad" ones of the "bad" sort and the members of the "bad" sort would glare at you.

As for Cedar Grove, it was already a source of contention; the house not important and Woods' good looks enough. Although being a member of Lyndal's in being the "big brother," Humphreys' mere ability to outshine Woods was a distinct possibility. And for James that day being "a fight" for Cedar Grove, the fight involved him. One day over three years he was reading "Woods' magazine and the book made me realize" that of his life.

The little area produced over 600 many things such as a ton of corn, half a ton of soybeans, several hundred pounds of alfalfa, some hay, and a few chickens. The total value was \$1,000.
